MIG-welded 11-14 gauge steel frame members hold Dakota's large components on a stable platform. The basic pedestal includes a rack and pinion mechanism for adjusting the digitizer from 28.5 to 44.5 inches height. Its surface tilt can be adjusted from 0 to nearly 90 degrees.

Advanced Ergonomics

Dakota pedestals and Monitor/Accessory arms provide a stable platform for all the operator functions required in computer-based graphic systems. Everything is where the operator needs it. Nothing gets in the way. All components are adjustable to suit the individual operator's preference. And Dakota's contemporary design is appropriate for today's office.

XJ-5A Pedestal

Universal Compatible

Dakota Series Pedestals are compatible with all major digitizer brands including the GTCO surface-lit and all 44" x 60" tablets. Most computer monitors and printers are accommodated by Dakota's accessory arms.

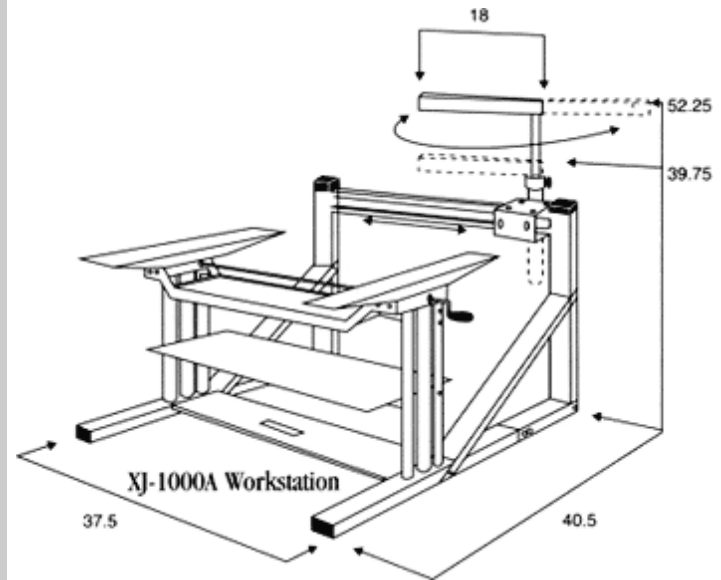

Dakota Series pedestals and workstations are compatible with all major digitizers brands.

XJ-5A Dakota Pedestal

- Smooth turning crank with precision rack & pinion adjusts with gas spring table height from 28.5 to 44.5 inches
- Tilt angles from 0 to near 90 degrees
- Includes Levelers or optional casters for mobility.

**XJ-1000A
Dakota Workstation
Includes X5-5A**

- Smooth turning crank adjusts desktop and digitizer workstations
- Single monitor arm and keyboard swivels 180 degrees to easily adjust to your needs
- Sliding monitor arm supports 14 to 27 inch monitors
- Adjustable computer shelf
- Small footprint - 10.5sq'

Modular Construction

Every system starts with a Dakota pedestal that is designed for digitizers up to 44" by 60" without need for customizing. Purchase your Dakota system as a complete workstation or start with the pedestal and add computer shelf, monitor and printer arms and other convenient accessories as required.

Small Footprint

The pedestal takes up no more room than the larger digitizers themselves. The structure for monitor and printer arm suspension requires less than two square feet of additional floor space, yet provides a solid platform. Optional adjusting casters provide a stable and mobile working surface.

Multiple Applications

Thousands of Dakota series pedestals and workstations worldwide are currently use for:

- Computer Aided Design
- Estimating
- Drafting
- Geographic Information Systems
- DeskTop Publishing
- Embroidery design

XJ-1500A Dakota Workstation

- Includes XJ-1000A
- "Start small, add later" - All workstations are modular
- Includes second monitor arm or printer arm
